## The World's Largest and Most Powerful Riding Trowel

Our HD560 rider features all hydraulic power steering and drive and is designed to satisfy the most demanding concrete contractors. It's our most powerful rider—and the industry's. The HD560 rider features rotors and hydraulic motors powered by Turbo-Charged Kubota® Diesel Engine. Designed with the finisher in mind from the blades up, the HD560 has many exciting features that make this the rider to measure all others by.

# HD560
