

Cementech MCD8-100RM

Mobile concrete dispenser with integrated concrete pump

This self contained system was engineered in cooperation with Reed Pump and is designed to transport a Cemen Tech MCD8-100RM and a Reed AH40 or AH30 to the jobsite. The Cemen Tech MCD8-100RM is capable of transporting six cubic meters of material and it and the pump are capable of producing 23 plus cubic meters per hour of fresh high quality concrete. Contractors no longer need to tie up additional manpower and equipment in transporting both the mixer and pump unit to the job site. With the CTI Pumper Package, the production and placement of the concrete is all rolled up into one unit.

Cementech MCD8-100RM

Capacity:	6 m ³
Production capacity:	23 m ³ per hour
Water tank:	2000 liters
Advantages:	Divided aggregate bin Dual admix systems

REED Rockmaster Pump

Production capacity:	23 m ³ per hour
Horizontal pumping distance:	297 m
Vertical pumping distance:	122 m
Concrete pressure:	1172 PSI (81 bar)
Max aggregate:	38 mm (1.5")
Concrete cylinder:	152 mm (6")
